PEACHES
TIGRE PACKING COMPANY.
At this season of the year when fresh fruit is unobtainable except at prohibitive prices, you can still procure from your grocer our tinned peaches which are as good as fresh gathered fruit and as cheap as ever. Although there are several so called "Tigre" Brands, ours is the only one bearing the "Tiger" upon it, and this we can guarantee as being of the very best obtainable fruit.
The process of canning renders these peaches more wholesome than fresh fruit, and they are specially recommended for children and invalids.
We do not consider it necessary to quote testimonials, but ask you to do us the favour to obtain the opinion of your medical man.

TELEGRAMS

(via Galveston.)

Dublin 12th.—The Corporation of this city has passed, by 37 votes to 8, a motion to congratulate the Duke of Clarence on his approaching marriage to Princess May of Teck.

Madrid 12th.—The Premier said today in the Deputies that he hoped the political parties would join to help Government to overcome the difficulties of the present financial situation. He said that the deficit was, in the aggregate, about 64 millions for the past 14 years.

Paris 12th.—The *Echo de Paris* says that Admiral Recanier, commanding the French Squadron in the Gulf of St. Jean, has ordered several ironclads to Morocco.

Aden 12th. — The insurrection at Yemen has sprung up afresh. The rebels are marching on Sanoa, the capital. Turkish troops are hurrying to meet them.

London 12th.—The Earl of Charlemont has died of influenza. Lord and Lady Brooke, Sir Francis Knolles and Viscount Dillon are also ill with the disease.

St. Petersburg 12th.—The medical reports from the famine-stricken districts show an alarming increase in the famine and in typhus fever.

Crawsfordville (U. S. 12th.—There has been a railway catastrophe 12 miles north of this place. Many killed.

Cairo 12th.—Father Walder, head of the Austrian missionaries in the Soudan, who recently escaped, confirms the news that the Mahdi has been poisoned.

London, 12th—The police, after a searching investigation, have arrested the leaders of a band of Anarchists at Watsall, near Birmingham, finding all the indications of their being a band of furious Anarchist dynamiters.

London, 13th—The doctors attending the Duke of Clarence held a consultation last night at his bedside, and gave it as their opinion that his condition is more serious than they or the family at first thought. The official bulletin issued this morning says that the inflammation of the lungs continues its course, and, although the patient's strength is maintained, there is no improvement as yet visible.

Rome, 13th—The Duke of Aosta, while dancing in Madame Reghait's house, fell and fractured a foot.

Paris, 13th—M. Floquet has been re-elected President of the Deputies.

Rome, 13th—The papers continue to discuss the question of Egypt; but are very reserved as to the possible consequences of the death of the Khedive.

London, 13th — Viscount Dillon is dead.

Paris, 13th—The Benedictine convent at Fecamp, in the Seine Inferieure department, was totally destroyed by fire last night.

London, 13th—The residence of the painter Millais in Scotland has been burned to the ground.

CENTRAL ARGENTINE RAILWAY.

We have received the subjoined circular from the Secretary of this unfortunate company, the tenor of which is that the Central Argentine is not earning enough to pay debentures and other charges. Under these circumstances the shareholders have not only to abandon all hope of any dividend whatever for years to come, but also to consider in what manner they are to act with regard to the expected deficit of £30,000 per annum.

According to latest quotations in London the Ordinary stock of the Company, which was at 240 two years ago, has fallen to 40. The wonder is that the stock is worth anything at all, seeing that practically the whole original capital has in a manner melted away. This is, without exception, the most terrible collapse of any railway enterprise in South America that we can call to mind.

In the subjoined circular the Secretary does not give us the earnings and the working-expenses apart of the Northern Railway to the Tigre, or of the Western section from Luxan northwards. Meantime he informs us that the Central Argentine pays £42,000 a year for rent of the Northern and £91,000 a year for the Western section. But, as we are left in the dark about the earnings of those sections, it is impossible to say what loss yearly they entail.

We are simply informed that at present the Central Argentine railway (including branches) is worked at a yearly loss of £30,000, a state of things which cannot go on long. The bones of Mr. Wheelwright must rattle in their grave at so startling an announcement.

London, 12th Dec., 1891.

Sir,

Several shareholders having recently asked for information as to the result of the working for the six months ending June 30th, 1891, I am instructed to send you the following approximate summary, reduced to sterling figures at the average current rates:—

Credits.	£
Gross receipts (including Buenos Ayres Northern and Western Sections and miscellaneous receipts..	240,370
Working expenses....	166,753
Balance of revenue.....	73,617
Add:	
General interest and registration fees.....	2,048
	75,665
Debits.	
Interest on Debenture Stock	21,000
Income tax.....	3,590
Buenos Ayres Northern Section (rent).....	20,878
Do. Western do. (annuity)	45,393
	90,861

The number of passengers and the tonnage of goods during the half-year compare very unfavorably with those in the corresponding period of 1890, and this will partly account for the great falling-off in the receipts.

The impracticability of raising the fares in proportion to the depreciation of the paper currency, and the heavy loss occasioned by the conversion of the balance of revenue from currency to sterling have also considerably added to the difficulties of the Company.

The average value of the paper dollar for the first half of 1891 was about 1s 1¼d as compared with 1s 8d for the corresponding period of 1890, 2s 6d for the corresponding period of 1889, and 4s its nominal value at par.

According to recent reports the prospects of harvest are favourable, and as cultivation along the Company's lines has been extended the Directors look for a large increase of traffic on this account. Besides the direct advantage from the carriage of the grain, the Company cannot fail to participate indirectly in the benefit to the country generally which must result from a good harvest.

Since the General Meeting in May 1891 the branch from Rio Segundo to Alta Gracia, 30 miles in length, has been completed and opened for traffic.

The works on the extension of the Buenos Ayres Northern section to Capilla del Señor, a distance of about 35 miles, are being rapidly pushed forward and it will probably be opened for traffic soon after the end of the present year. It is expected that the traffic upon the line will be of a suburban character and soon give a substantial return upon the capital spent upon it.

A concession has been obtained for an extension about 25 miles in length from Capilla to San Antonio, where a junction will be made with the Buenos Ayres Western section of the Railway, by means of which the Company will have a through run into the Central station at Buenos Ayres over its own system from Cordoba, Rosario, and the other districts served by the Railway.

It is not at present proposed to proceed with the works between Capilla del Señor and Pergamino, or those from Sastré to Santa Rosa.

Your obdt. servant,
J. W. Theobald.
Secretary.

OUR LONDON LETTER.

GENERAL TOPICS.

(From our own Correspondent.)

December 15th.

You will find in the *Financial News* of this morning important replies from Mr. Noetzlin, Dr. Ellauri and Mr. O'Leary to the correspondence which has appeared in that journal in reference to the Uruguayan Conversion Scheme. You will observe that the replies are mainly directed to the letters signed "Antwerp" —"a pseudonym"—says Mr. Noetzlin—"which I understand is being openly acknowledged by a notorious financier of the River Plate whose share in producing the crisis at Montevideo is well known."

Referring you to the letters, I need only add the following remarks from this day's *Financial News*:—

"We print in another column a letter from Dr. Ellauri with reference to the scheme for the conversion of the Uruguay Debt. We are glad to hear from Dr. Ellauri at last; but we regret that his communication is as brief and as bare as it is. Dr. Ellauri tells us that he is instructed by his Government to disavow "the expressions which, in some articles contained in your paper, have been attributed to his Excellency the President of the Republic." It is a pity that this disavowal is not a little more definite. It is equally a pity that while he was writing Dr. Ellauri did not take the opportunity to shed some light on the point concerning which the Council of Foreign Bondholders recently confessed its utter ignorance. He might, for instance, have told us to whom the large sum of money which is to be paid for commission, expenses, press propaganda, etc., is payable; who has the control and distribution of it, and what the Council of Foreign Bondholders are to receive for their participation in it. It would also have been more interesting if he had told us what number of the bonds held in Montevideo have been offered for conversion. Mr. Noetzlin's letter is not much more satisfactory. He declares, on the authority "of two establishments of the highest standing in Montevideo, that the bondholders there have not rejected the conversion arrangement." We have no reason to believe that upon this point Mr. Noetzlin is any better authority than Mr. Sidney S. Kennedy, or our correspondent "Antwerp;" and he is certainly not a disinterested authority. It would, perhaps, be as well for Dr. Ellauri and Mr. Noetzlin to attend the meeting of bondholders called for Thursday next, and let the whole matter be threshed out in public."

The report of the meeting on Thursday you will receive by the French Mail. This letter goes by the Royal Mail and the correspondence referred to I send by the Duca di Galliera, so that by one or the other conveyance you will be posted in this squabble in respect to Uruguay finance. On the one side we have discontented bondholders, anonymous correspondents and continental interests, and on the other some of the highest names in the London financial world. It does not follow that high finance should be infallible, but it is not easy to believe that the gentlemen who have undertaken to protect foreign interests in Uruguay could have deliberately sacrificed general to particular interests. Should events prove that it is so we may expect a democratic revolution in the financial world, such as occurs in the political, when wealthy monopolists are permitted to paternally arrange the affairs of the commonwealth. Amongst the documents I send via Genoa you will find some notes from the *Daily Oracle* on Murrieta's negotiations with the South American and Mexican Trust.

* * *

Christmastide is fast approaching when by some singular dispensation the clink and rattle of business seems to cease and the wrangling of politicians is unheard. Mr. Gladstone leaves today for Biarritz. He will be absent for six weeks; Mr. Morley also leaves for the south of France. Mr. Chamberlain will probably finish up the Autumn campaign at Edinburgh where he and his wife and son are already ensconced.

The verdict for the respondent in the Florence St. John case will, I presume, have been sent to you through your telegraphic agency. The case came to a rather sudden ending last night, as Mr. Gill, counsel for the respondent, M. Duplany, thinking the evidence was so conclusive, offered to forego more speechifying if Sir Charles Russell, would do the same. Sir Charles agreed, and perhaps both these celebrated lawyers felt a tinge of shame at the inordinate time and expense wasted in these pottering and disgraceful cases in the divorce court. The judge summed up fairly enough, with, as we thought, a slight leaning towards the "crushed mulberry bonnet," but the jury decided after an hour's confabulation that there had been no cruelty on the part of M. Duplany, which settled the question as far as the petitioner was concerned; and they were good enough to decide that Madame Duplany had not committed adultery with Mr. Arthur Cohen or possibly with any other man. So Cohen, the interventor, got his costs. There was a further question of judicial separation asked for on the part of the petitioner, which the judge postponed until to-day. After some argument with Mr. Inderwick, Mr. Justice Jeune granted the application this morning. The costs in the St. John case will be considerable. Sir Charles Russell had marked on his brief 100 guineas with 30 guineas a day as refresher. Mr. Inderwick 50 guineas with 20 guineas refresher. Mr. Gill (the winner) only 25 guineas brief and 10 guineas a day refresher.

You will see that the question of the War Office, our "nice little army" and National defences in general is at last taken up in sober earnest by the *Times*. I need not enter into the technicalities of war office administration set forth by "Vitus," supposed to be inspired by Colonel Chesney. The black spot is here, as recorded in the following paragraph I take from the *Daily Chronicle* of this morning:—

"The Duke of Cambridge is accused of being discourteous to a distinguished officer in Ireland the other day. It is alleged that his Royal Highness was in a bad temper when he went to Lord Wolseley's dinner party. His bottled up rage, excited by an attack on his administration which had appeared the day before in one of the papers, found vent on the first guest he was introduced to. This chanced to be the Chief of the Army Medical Department, whose officers have just beaten down the Duke's life-long objection to get their just claims of rank recognised. Purged of expletives, this was how the Duke hailed him:—"Good evening, Surgeon-General, or Field-Marshal, or whatever they call you now. Ecod! I don't know how to address you fellows," continued his Royal Highness, "with your new titles. I don't know what the——I am myself. I suppose you expect me to take my I at off to you. What do you want?" "Only to have our proper status, may it please your Royal Highness, as a corps," was the courteous reply. "A nice corps," roared Royalty, "a pretty corps, indeed, with one man in Portobello and another at Pigeon House." "Precisely like the Royal Engineers in this command," was the crushing retort. After that backhander a taste of the royal urbanity went all round during his Royal Highness's visit of inspection. Everybody "caught it" except—Lord Wolseley."

* * *

Irish political affairs have been characteristically enlivened by a crack from a blackthorn which at Waterford brought blood from the devoted head of Michael Davitt. The whack had more serious political consequences than were intended. The Nationalist candidate for Waterford in opposition to Mr. Redmond was our friend Keane, a London wine merchant and formerly a member of the committee of the South American Club, when I had the honour to be its Secretary. A nice pleasant gentleman he was, Mr. Keane, not the Secretary. During the shindy at Waterford, Mr. Davitt interposed his person between Mr. Keane and the Parnellite mob. It was thus he got the whack, which seems to have so changed the molecular arrangement of his cerebral matter, that in spite of his previous determination not to offer himself as a Nationalist candidate he suddenly resolved to put Mr. Keane aside and stand himself for Waterford. This has inspired a serious article in the *Times* of this morning. It asks, "how can Mr. Davitt be accepted as the spokesman of the priesthood?" He is also, as the *Times* says, the avowed apostle of Land Nationalisation, which Mr. Gladstone has declared to be "either robbery or folly."

* * *

The appointment of Lord Dufferin as successor of Lord Lytton in the Paris embassy has given great satisfaction to our French neighbours. M. Bartholomey S. Hilaire is particularly eloquent on the subject. So also are the *Temps* and the organs of all parties.

At a meeting held this afternoon at the Holborn Restaurant, the shareholders and depositors in the English Bank of the River Plate, at which Mr. Stewart, the official receiver, presided, it was agreed that he should retire from the active liquidation of the bank, and that it should be carried on by Mr. Welton aided by a committee of experts. It was announced that the liabilities of the bank in London, Buenos Ayres, Rosario and Montevideo exceeded five millions sterling.

PROVINCIAL NEWS.

According to the latest advices from Corrientes, one of the bandits who recently took the town of Itati by assault and sacked the houses has, we are glad to say, been caught in one of the islands in the Parana. It is presumed that the rest of the infamous and audacious band are hidden in the island in question. We hope they will all be caught and properly punished. To attack a peaceful town, put the inhabitants to flight and sack the houses constitutes a feat that only a South American bandit could plan and achieve. Things are coming to a pretty pass when such things are visible in a civilized country.

Rosario is again in a state of excitement. Rumors are flying about there that the Radicals are preparing a surprise. We all know what that means. But this is the hundred-and-tenth time we have chronicled these Rosario rumors. The provinces, however, are by no means quiet. Mendoza looked quiet up to a few hours ago, and now the Legislature claims national intervention to make the Executive obey the laws passed. The Governor there is "radically" opposed to the Legislature. Why does not the Legislature impeach the Governor instead of asking the National Government to interfere?

There are fresh inundations at Ballesteros, San Marcos and Bell-Ville, but not on so large a scale as the former. Still these floods are causing a terrible deal of distress. The goods traffic of the Central Argentine has been brought to a full stop by the floods. The Rosario people are subscribing for the sufferers. Things seem to be doing well in Rosario. We note that the Rosario Insurance Company have declared a dividend of 40 dollars per share.

The Rioja Legislature has quashed the election of Mr. Torres to the Governorship. This decision has caused tremendous excitement in that Province, and it is said that the Governor-elect has solicited National Intervention. In the meantime the actual Governor is not idle. He has summoned the electoral college and appointed the departamental authorities for this year. It is not necessary to say that H. E. has chosen his own partisans for the vacant posts.

The Cordoba police have not yet arrested all the electors whom the Government has ordered to be imprisoned, and it is very probable they will not be able to do so, as several of the electors have been prudent enough to clear out. This political persecution and the mild practical jokes of the Cadeneros are keeping the good Cordobese in a state of alarm.

The political situation in La Plata is changing. Mr. Segui has left the presidency of the Provincial Party. Mr. Doll has been named in his place, and there is a rumor of a rapprochement between the party and the Union Civica.

CONTRACTORS' RAILWAYS IN ARGENTINA.

(From the "Financial News.")

Recent advices from Buenos Ayres state that the contract for a line of railway of narrow gauge, to run from Buenos Ayres to Rosario, had been sent by Mr. A. Hume to the National Government for approval, the plans and surveys having already been approved. This new line is to pass through the stretch of country lying between the Western (now the Central Argentine) and the Rosario Railways. The total length will be 328 kilométres, or 203 miles. Judging from this short description of the proposed new line, it is likely, if made, to have a warm time of it in the way of competition. With the Rosario line (189 miles) on one side, and the Central Argentine (216 miles) on the other, about thirty miles apart on the average, both first-class broad-gauge lines, fully equipped and in command of the existing traffic—which, unfortunately for them, could easily be carried by one—it is difficult to see what extra traffic a third line, and that a narrow-gauge line, is likely to have. No doubt, it will be argued that the new line is intended to complete the narrow-gauge system to Buenos Ayres; and it is just possible that we may shortly have this third competing line dished up in the form of a prospectus for the English investor, prepared in the most tasty manner. When it appears we shall probably have something more to say on the subject. In the meantime, it may be well to point out that the contractors' lines, although, no doubt, very profitable to the concessionaires, contractors, and financiers, are seldom of any benefit to the investor. The combination of Messrs. Hume, Meiggs and Murrieta and Co.—who so kindly introduced the narrow-gauge system of railways in Santa Fé to the English investor—must have been very profitable to them as concessionaires, contractors, and financiers, as these gentlemen have between them placed on this market during the last seven or eight years various securities of contractors' lines of railway in Argentina to the tune of upwards of £15,000,000 sterling, or £2,000,000 per annum, the value of which, at present quotations, would be very little over £6,000,000. On the other hand, it is very doubtful if the present traffic receipts on the combined lines, representing some 1,900 miles of railway, would, after the payment of working expenses, leave a surplus enough to pay 2 per cent., even upon the present value, or less than 1 per cent. It is true that some of them have a National or Provincial Government guarantee in addition, but whatever that may be worth seems to be fairly appraised in their present market values.

As the railways referred to have been most disastrous to investors, it may be useful to enumerate them for future guidance:—

Line.	Nominal capital.	Present value, about
	£	£
Sta. Fé (Nor. Col.) Ry..	1,039,500	260,000
Sta. Fé (West Col.) Ry ..	929,400	260,000
Sta. Fé & Reconq. Ry..	1,261,700	300,000
Cordova Cen. Cordova Cen. (Cen. N. Sec)	5,166,666	2,200,000
Cordova & Rosario.....	1,976,300	1,185,000
E. Rios Railways	3,275,600	1,150,000
Bahia Blanca and N.W...	2,000,000	800,000
	15,649,166	6,365,000

All these lines have passed through the hands of Messrs. Hume and Meiggs as concessionaires and contractors, and were mostly financed through Messrs. C. de Murrieta and Co. These gentlemen, having made their "pile" out of the railways enumerated, which are now nearly all completed, and having no further interest in them, can afford to look on with equanimity while the long-suffering investor contemplates his losses—another notable example of the truth of what a would-be baronet once wrote about money and brains; but the investor is gradually being educated by experience, and, as he is daily becoming more cautious, it is very doubtful whether in future the securities of railways got up by contractors and financiers will be so easily disposed of as they have been in the past.

HIGHLAND SCOT CANNING COMPANY.

Quilmes, Jan. 12th 1892.

Mr. Editor,

With reference to the letter in Sunday's issue on this subject, and as an exponent of the good this Company is doing in this country, I beg you will give these lines a place in your valuable paper.

If "Quilmero" (?) would consider the pros and cons of the case he would extend a helping hand and not run down the Company as he has done. Let us look at the subject in a fair and commonsense light: here we have a gigantic Company that give employment to 1,500 to 2,000 men, a Company that to purchase their produce have to import gold into the country, a Company that is a credit to the country, and that every patriot and every Englishman ought to feel proud of, as by opening a ready market for the produce of the country it shews the way for remedying the crisis. Pray, how many leagues of camp are there in this Republic that do not yield to their owners a single cent per annum? Thousands I answer, and this is only because there is no paying market for cattle bred far outside: if this Company is a success the result naturally is more institutions of the same kind, consequently a bigger demand for animals, more outside camp bought up and more labour required.

When a large concern such as that under discussion is started, it cannot be expected to run smoothly at first, there are sure to be some hitches, and if your correspondents on this matter would only take the trouble to make enquiries as I have done at the proper place, they would, I unhesitatingly say, patiently wait and give the Company an opportunity to remedy matters.

A few more Companies of this nature would do more to reduce the price of gold and put the country on a better footing than all the Bills the Government could ever pass.

Owing to the tremendous amount of antipathy shewn against this Company the difficulties placed in its way have been almost insurmountable, but from latest reports everything is now working satisfactorily.

I ought to mention that I have no connection whatever with this firm.

I enclose my card and remain,
Yours truly,
Common Sense.

ED. NOTE.—One hundred of the above companies would not have the least effect towards curing the crisis. The latter arises almost wholly from depreciating the currency. Meantime the question of a public nuisance, dangerous to health, is quite another matter, and some steps must be taken to prevent a repetition of foul smells.

Quilmes, Jan. 13th.

Mr. Editor,

In your issue of Sunday last, I was much amused by a letter therein, referring to the "Highland Scot Canning Co.", the amusement being conveyed by the evident personal spite against either Mr. Nelson or the Manager, displayed by the writer.

"Fair play is a jewel," and that must be my excuse for troubling you with this letter, as in all fairness to Messrs. Nelson & Co, and with all due deference to the writer of the letter in question, I, as a resident of the Partido of Quilmes, must deny that any objectionable effluvia has been experienced, either by myself, or others with whom I have discussed the affair, since the improvements required by the Municipality have been carried out. "Yankee bluffing" is altogether too funny and certainly "se lleva la panaderia," but it is not much good when called to show against

A Royal Flush.

DOM PEDRO'S FUNERAL.

Paris, Wednesday.

Even more ceremony and pomp than could have been expected marked the obsequies of the late ex-Emperor of Brazil to-day. Quite a settlement of ladies and gentlemen formerly connected with the Imperial Court at Rio and Petropolis has been formed in Paris, and the gentlemen, or many of them, came out in Brazilian Court dresses, and wore the insignia of all the grand orders they could muster. Brazil is a country of diamond mines, and their crosses and stars threw back in glittering scintillations the artificial lights round the catafalque and altar. It was arranged that the Comtesse d'Eu and her eldest son, the Prince of Gran Para, were to be chief mourners, but that General Brugere, representing M. Carnot, was to take precedence of everyone else. It was said that this was why the Duc de Chartres, though married to the niece of Dom Pedro, did not go to the funeral, and it was remarked that the Duc d'Aumale was also not there. The Comtesse d'Eu sat alone in the chancel, her aunt, the Princesse de Joinville, being near her. The church was magnificently decorated. The catafalque ascended to a towering height, and the false coffin on the top had on it the semblance of an Imperial crown. The real coffin was in the lower part of the catafalque, and so placed as to enable Cardinal Richard, who gave the absolution, to sprinkle it with holy water. He and the relatives of Dom Pedro's family alone performed this rite. The music was spoiled by the funeral draperies in which the interior of the church was hung, otherwise it would have been very fine. Mourning was universally worn by the ladies, and the members of the Corps Diplomatique wore their uniforms, and the members of the Institute were in their palm-embroidered coats.

After the funeral service at the Madeleine the weather, which had been rainy, cleared, as the hearse, drawn by eight horses, started from the church. It was preceded by two smaller hearses laden with flowers. One of the wreaths was furnished by the head gardener of the City of Paris, to whom the deceased Emperor often sent rare tropical plants. This wreath was made entirely of twigs of the coffee bush and tobacco leaves. The seeds in both cases had been supplied by Dom Pedro. The Comtesse d'Eu preceded the hearse in a mourning coach with her eldest son. The carriage of the President of the Republic had precedence of all who came behind the hearse, and was separated from the mourning coaches in which the Princess rode, by four masters of ceremonies. The eight cords of the pall were borne by the courtly-looking chamberlains, beside whom walked those who were to relieve them. The streets were very muddy, but a long array of celebrated men went on foot to the Orleans terminus, which is two and-a-half miles from the Madeleine. The wreaths sent by different Sovereigns almost filled a waggon. They came from Queen Victoria, the King of Portugal, the King and Queen of Saxony, the Prince and Princess of Hohenzollern-Sigmaringen, the Emperor of Austria, the King and Queen of the Belgians; the Grand Duke and Duchess of Saxe-Coburg, and the King and Queen of Sweden, who ordered a wreath of pine branches mixed with hawthorn twigs that were thick with haws. Both were emblematic of a warm friendship, which defies the chills of misfortune. The Princess Clementine sent from her hothouses at Eberthal a giant wreath composed entirely of Brazilian plants and flowers. The second waggon was filled with wreaths sent by Academies and other learned societies. The funeral took the character of a splendid popular street opera. The music in the streets was military, and every arm was represented in the division of troops which attended; but none of the soldiers knew how to salute the corpse in Royal or Imperial fashion, and the infantry carried their muskets as if they were not at a funeral at all.

RAILWAY ITEMS.

Mr. Jose A. Villalonga, whose appointment to the managership of the Argentine Great Western has caused such widespread satisfaction, left yesterday for Mendoza to take charge of the railway. On the occasion of his departure Mr. Villalonga was made the object of quite a popular manifestation in San Fernando on Tuesday night. His residence was crowded with friends and well wishers, and the following address was presented to him:—

"Mr. Jose A. Villalonga:

On the occasion of your leaving San Fernando, which is indebted to you for very many disinterested services done by you as Mayor, we, the undersigned, deem it a duty to express to you our cordial wishes for your happiness. Unswerving honesty and uprightness have always distinguished you. It is true that these qualities merely imply the accomplishment of duty, and if we call attention to them, it is as an example, particularly in moments like the present, when the public functionary does not always possess these two qualities. That fortune may crown your efforts in the new fields opened to your labors is our sincerest wish." Signed: C. Vasquez, L. Laplane, Delfor del Valle (200 signatures follow.)

Mr. and Mrs. Villalonga were moreover presented with diplomas of honorary membership by the Gauloise, a French Mutual Aid Society in San Fernando.

A petition has been received at the Home Office from the good people of Reconquista for the opening to public traffic of a provisional line built by the Gran Ferro-Carril Sud Americano Company between the harbor and the town of Reconquista. It is probable this petition will be granted.

$1,767 is the amount the Rosario Railway Company are trying to get out of the Government for a special train and official tickets in October last.

EDITOR'S TABLE.

There was a milk-and-water tinge in things in general yesterday, in depressing contrast with the breeziness of politics on Tuesday. No particular news of any kind, but Dame Rumour had a good deal to say as to what a day, or even an hour, may bring forth. Confound the old chatterbox.

The Galveston telegram about the Duke of Clarence's health is not reassuring: but he is young, and will probably pull through. The Earl of Charlemont and Viscount Dillon have succumbed to influenza, and several other big-wigs have caught it.

We learn that the Women and Emergency wards in the British Hospital are so overcrowded that patients are sleeping on the floors! This should stimulate the aid to be given to the coming Bazaar, and, no doubt, will.

A breach of promise cum elopement case in Rosario is shaking society there to its centre. Widow, widower and young girl of 16. "Que mundo!"

We take to our editorial bosom Kraft's Guia for the first quarter of this year, and are glad to perceive that it has grown fat on the public patronage so deservedly extended to it. There is a fine map of the city attached to this new and enlarged edition.

A decree was issued yesterday by the Finance Minister prohibiting trade in small craft under ten tons with the neighbouring republics. The object is to prevent smuggling; but it won't.

The latest news of the tiff between Uncle Sam and Chile is that the former means to send forty war ships to Valparaiso. This looks like business; but we still believe in a peaceable settlement.

We note a vigorous protest from Mdme. Vigneau, who used to have the great "modista" shop in Calle Florida, and whose husband took out a concession for a colony in the Chaco, against some disparaging remarks made by the Governor of Formosa in a recent report. Our rule of conduct is always to side with the ladies, and we give the Governor in the wrong. We are sure H. E. did not mean to say what he did, although we can't very well make out what it is all about. There is one thing certain, and that is that the concession belongs to Monsieur Vigneau, and that if the colony—Aquini by name—has not reached the degree of development it should have attained, the public powers are to blame for not surveying and subdividing the line.

In reply to the enquiry for Mr. R. B. Colvin's address, we beg to say that he is staying with Mr. Samson, at 906 Calle Florida.

We positively shed salt tears yesterday on reading the circular of the Central Argentine Railway, to which we refer in our leading column. How often and how often, in years past, did we not warn the old ladies of the Board to wake up; but they turned an adder's ear to our advice. No doubt, the Gold Eagle has a lot to say to the collapse of the line, but so has the Rosario-Sunchales-Tucuman line, and the gross blunder of leasing the Northern and part of the Western line at the very moment when railway affairs in this country began to go down hill. Such management!

There is a prodigious number of newspaper correspondents at Mar del Plata this year—whether professional or amateur is hard to detect; but we suspect the latter, from the lavish re-iteration of hosannahs to the beauty and toilettes of the ladies. Well, it pleases the girls and makes the unfashionable public grin, so there is no great harm in it. There appears to be a great deal of fun going on in the way of dancing, dining, pic-nicking, ball-playing, pigeon-slaughter, flirtation etc.

A London contemporary speaks in the following disrespectful terms of the North Pole seekers:—"A plaintive melody impressed upon a past decade the fact that "there are different kinds of whistling." There are different kinds of most things, but the vagaries of the North Pole lunatic fairly, to quote the classic "argot" of Piccadilly, "annexes the gilded macaroon." Good men have been lost through this phase of insanity, and as good men have made themselves ridiculous by propounding schemes for reaching this mathematical point. A Norwegian named Ekroll is the latest in the field, and with the assistance of a specially invented boat-sledge he proposes to reach the Pole. A Professor Supan calculates that the journey there and back will, under favourable circumstances, be accomplished in 225 days."

The City Fathers met specially on Tuesday to discuss some mess and muddle about the New Mataderos. After a long wrangle, during which Alderman O'Farrell did his best to bring the city legislators to reason, the latter resolved not to discuss what they were summoned to discuss, and went home. What a lot!

The wind that shook the barley—we mean the windows in the city on Tuesday night and gave promise for a short time of a dash of rain, was a fraud; it died away, and the hours for snoring were almost as hot as the day. The same wind, we believe, did a little in the Old Harry line in Parana, where it assumed the shape of a tornado for a quarter of an hour.

As usual. They have had too much rain for the last week in the Santa Fe colonies, where it has worked much damage to the half-cut crops; whereas here in the city, where we are all praying for rain, to save our lives, not a drop comes down. Just like the capricious Clerk of the Weather.

"Next year will be kept as a year of the deepest mourning throughout Poland, in memory of the loss of her independence. July 17, 1892, will be the hundredth anniversary of the splendid fight of Kosciusko at Dutierka, which was the one great and noble event of a year of wavering, weakness, treachery and utter submission, and the last year that held any real hopes for the Poles." The disasters of 1792 were never redressed, the wild dash of despair two years later only making the humiliation and division of the nation more rapid and complete. All the women of Poland, from duchess to peasant, will wear nothing but black all the year, and the large firms who deal in gown and dress materials, millinery and jewelry are ordering everything black in preparation for this universal demand." This is all very fine and patriotic; but it is more than probable that the Autocrat of the North will put his iron heel on it and do a good deal of knouting, if inky garments become as fashionable as predicted in poor Poland. The Monroe doctrine was sixty eight years old on the 2d of last month.

The Lord Mayor issued what he calls a decree yesterday, and a very good decree it is, as it puts a stop to the monstrous waste of pipe-water by deluging the streets with the hose from private houses. This abuse, like so many others, has grown up in direct violation of the Bateman Legacy Law, which provides that the hose is exclusively for use inside the premises. For the future, occupiers of houses will have to pay a fine of $20 for the first and $40 for each subsequent time that their Jeameses indulge in the sport of flooding the streets and shower-bathing the passers-by.

There was a great crowd and string of carriages at Senator Bonorino's funeral yesterday. The flags on the public buildings at La Plata were at half-mast till sunset.

One of our most esteemed contemporaries says that a large buyer of *cotton* for an English house is expected here shortly! More queer geography. The drummer, or whatever he is, has evidently mistaken Buenos Ayres for New Orleans, or perhaps thinks that they are within a couple of hours' rail of each other. However, we won't rail at the poor man.

An author does not usually have the bump of order strongly developed, so the exception in the case of Alexandre Dumas is notable. He is very orderly, and his intimate friends frequently find him in his shirt-sleeves, feather-duster in hand, cleaning his study. Dumas is a light eater. His first breakfast is composed solely of a glass of milk. At noon he takes his second breakfast, always a plain meal, and at 7 o'clock he dines. He is in bed by 11 and up at 6.30.

The La Plata Finance Minister, Mr. Moreno, considers second thoughts best, and has resolved to stick to the ungrateful finance portfolio of the ruined Queen Province.

The London papers by the Clyde show that the Uruguayan Conversion Scheme has burst up sky high, as the great mass of the Bondholders have got at the "true inwardness" of the whole precious affair. At a meeting held on the 17th ult. all the cats were let out of the bag, and strong expressions, such as "pack of knaves," "brazen impudence," etc., were freely used. The first expression (used by the Chairman) was understood to apply to the Council of Foreign Bondholders. It's a very sad and tearful affair indeed.

Some of our colleagues say that Frank Brown and his merry circus are expected back here soon from the Cape. We have not heard from him lately.

We have another kangaroo—we mean *Boomerang*—from Australia. Whoever wants to read it from cover to cover has only to call on us and say so.

We were favoured with the following note yesterday:

STANDARD,

"Could you or any of your numerous readers inform me what chance there is of getting employment in the Falkland Islands, and the cheapest way to get there, and oblige,"

Yours etc.,
"Enquirer."

The *Telegrafo Maritimo* says that several worthy Uruguayan Deputies, tired of the reiterated negative answer to their question of "Sister Anne, sister Anne, do you see anything coming from Ellauri? have resolved to throw law-making where Macbeth advises physic to be cast, and have taken "French leave" of the Chambers and gone to rural parts to amuse themselves.

ENGLISH LITERARY SOCIETY.
732--Cuyo--732

It is proposed that an Excursion of Members and Friends should take place to Colonia by special steamer on February 2nd 1892.

As a certain sum has to be guaranteed beforehand to the steam-boat owners, this cannot be organized unless at least 80 persons subscribe to take tickets.

The cost of the ticket with lunch, etc. will be $8 m/n.

The price of the tickets which were purchased and not used for the Excursion to La Plata will be fully returned on presentation of the ticket, or these can be exchanged for others for the Excursion to Colonia by paying the extra dollar.

Hayward's Paste Dip
For the CURE of SCAB

Messrs. Moore & Tudor, Maipu 163, B. Aires. Chascomus, March 23rd 1891.

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed) JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Wednesday, Jan. 13th.

The political horizon continued in a threatening mood to-day, exchange fell again, and gold ruled very steady. The intervention in Mendoza and the state of alarm in La Plata gave rise to no end of surmise, but the panic-mongers were not so successful as yesterday. The supply of gold this morning was heavy; twenty thousand ounces changed hands for cash: the price opened at 62.10, rose to 62.50 and closed at 62.40, with a weakening tendency. Sovereigns opened at 19.30 and closed at 19.40. The closing rates show a premium of 283¼ % on ounces and 285 % on sovereigns. At the last moment the firm tone of the market gave way and the closing quotations tottered.

Patriotic Bonds ruled firm, but very dull, above 58. La Plata Cedulas were also firm; P closed at 30¼, L, M, N and O at 29.80 to 29.90, K at 29.60 and G at 29.

Exchange was weaker than yesterday. Francs were freely spoken of at 5.15 on Paris, telegraphic transfers at 47⅞d. on London, and regular bills at 48¾ to 48⅞d. Discounts showed no improvement.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

South American Ounces—
For cash.... 19,263 at 62.10-20-30-20 30-40-50-40

Sovereigns—
For cash.... £600 at

that the market would drop away, but prices only declined 10 cents in ounces and 5 cents in sovereigns. About six thousand ounces were sold for to-morrow at 62.40 and 62.30$. Sovereigns continued very dull; five hundred were sold at 19.35.

Patriotic Bonds remained firm at 58.10 this afternoon. La Plata Cedulas were somewhat weaker. A few National Bank shares were sold at 20.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

The Minister of Finance has fixed the rate of gold at 360 for to-morrow for payment of Customs dues.

We take the following from the London *Financial Times* of the 17th ult.

"It was not very satisfactory to the shareholders of the English Bank of the River Plate to be told at yesterday's meeting that they are liable in a sum of £160,000 beyond the amount of their share account. Mr. Steward stated, however, that he was advised by eminent counsel that such was the case. Under the circumstances the Official Receiver threw out the suggestion, which has been repeatedly put forward in this column, namely, that the whole matter seemed to point to the desirability of some scheme by which a company could be formed to take over the asssets and liabilities, a portion of the claims to remain as debentures or preference shares in the company. This course has been adopted in previous instances, and has worked out satisfactorily. In deciding to apply to the High Court to appoint Mr. Welton liquidator the shareholders have acted wisely, since Mr. Welton has had considerable experience in winding up Banks, and in the case of the Oriental Bank in particular he was singularly fortunate in the results he obtained."

The principal exports from Buenos Aires during 1891 were as follows :—1,610,963 dry and 1,322,111 salted hides, 82,425 various hides, 262569 bales wool, 51691 do sheepskins, 2734 do hair, 334807 bales jerked beef, 1,588,888 ks do, 182,574 boxes preserved beef, 496202 frozen sheep, 9170 boxes tongues, 537,889 bags maize, 2,382,444 do wheat, 116,657 do linseed, 60267 bags linseed cake, 80,001 bags seeds, 30189 do flour, 46480 cks tallow, 3,493,816 horns, 31,256,612 ks bones and boncash, 7619 head of cattle, 55827 live sheep, 3636 horses.

From John Norton's and Son's circular for the month of November we take the following shipments from United States and Canadian ports to Buenos Aires :—1,697,000 feet white pine, 412000 do spruce do, 607000 do pitch pine, 102 boxes chairs, 60 pks sail duck, 21250 cases kerosene, 9 reaping and mowing machines, 208 cases ploughs, 1450 barrels rosin, 274 cases sewing machines, 75 boxes turpentine, 4400 lbs tobacco; 50 paks wecking, 475 cases lubricating oil, 306 coils sisal, 122 do Manilla rope, 575 cubic feet rakes, 55000 bales twine 1222 pks agricultural implements.

The "Live Stock Journal Almanac" for 1892 contains, in addition to the usual full supply of specially compiled breeders' tables, lists of societies, fairs, &c., no fewer than forty-three original articles and between twenty and thirty high-class engravings, which together make it indispensable to the agriculturist and breeder. The articles range over the whole subject of live stock, papers being contributed by leading authorities and experts upon horses, cattle, sheep, pigs, dogs, poultry, pigeons, and birds. To all the leading breeds of horses, cattle, and sheep papers are devoted tracing their progress during the past year; and there are also a large number of important essays that possess even wider interest. The articles by Lord Arthur Cecil, Mr. Walter Gilbey, Mr. G. S. Lowe, and Mr. C. W. Tindall' on horse breeding will attract much attention, as they treat of branches of the pursuit which have not hitherto been discussed so much as could be desired. Dr. Fleming's paper on the "Horse's teeth" will be found most useful to horse owners, and of the same type are the communications by Professor Axe on the injurious effects of polluted water, and by Mr. A J. Sewell on the "Hygiene of the kennel." The practical side is also kept well in view by Mr. Gilbert Murray in his paper on the Management of Sheep; by Mr. R. Bruce in his contribution entitled "A Good Steer Getter"; by Mr. Heber Hunfry and Mr. W. Goodwing on the breeding and management of pigs, and by Mr. W. B. Tegetmeier on "Poultry for the Market." In view of the discussion on Small Holdings, Mr. Fletcher Moss's paper recording his experiences in the keeping of live stock on small freeholds will doubtless prove suggestive. The illustrations are very artistic, comprising not only elaborate engravings of noted living animals, but also reproductions of several famous old paintings. The present issue of the Almanac (which is published by Tinton & Co., Ludgate Circus, London, at 1/-, or 1 post free) should still further enhance its high reputation and secure a substantial increase in its great circulation at home and abroad.

TO ESTANCIEROS.

Why use poisonous dips dangerous to both Man and Beast, and from the effects of which Estancieros are continually suffering heavy losses, and pueseros getting maimed, when you can buy.

LAIDLAW'S TOBACCO POWDER

which is guaranteed perfectly harmless in use, costs less and never fails to cure the worst bases of Scab

Read one of the latests testimonials :—

Estancia El Ombu
Ramallo, Oct. 21st, 1891

Messrs. Mackill, Murray & Co., Buenos Aires

Dear Sirs

I am **more than satisfied** with the result from dipping with **Laidlaw's Tobacco Powder,** and I may say that so is **Mr. C. Quesada,** owner of this estancia. I dipped the sheep (60.000) twice in **February** and since then have had hardly any work to do from hand-curing and the sheep are **perfectly sound to-day.** The cost of Dipping, including labour, was **$0.2[illegible] cents** per head or **$26.50 per 1000 sheep,** I have not tried it for hand curing, having a drum of 5 gallons on hand of another dip, and this has more than sufficed for all the hand-curing that has been necessary since **February last.**

I remain your sincerely
(signed) CHARLES R. KENYON.

DR. J. COLLIS BROWNE'S CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co', Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists]

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

At the Estancia Grande, the property of GEORGE BELL there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

LA TURQUIA

Macrs and Fishbein, London.

Calle San Martin 272 and Lavalle 1212

Rich assortment of legitimate Turkish cigarettes and tobacco, the only kinds that do not injure smokers, being recommended by the most illustrious physicians in Europe and this country.

Whoever desires to preserve his health should smoke exclusively our tobacco, which is more aromatic and more palatable in comparison than any other. Dr. Pirovano says in his letter of 23rd December 1891 about our tobacco.

"Your tobacco is less prejudicial to the health than any I have yet tried."

Now Opened.
